

The first two studies were conducted by researchers who had no knowledge of the purpose of the study or the results of the other study. The third study was conducted by a researcher who knew the purpose of the study and the results of the other study. The fourth study was conducted by a researcher who knew the purpose of the study but did not know the results of the other study. The fifth study was conducted by a researcher who knew the purpose of the study and the results of the other study.

Le présent plan est établi sur la base du dossier du permis de construire et pourra subir des adaptations dimensionnelles, techniques et d'organisation afin de répondre aux contraintes induites par les études en phase PRO. Les surfaces des placards sont comprises dans la surface des pièces où ils se situent. Les poutres, poteaux, soffites, canalisations et faux-plafonds n'apparaissent pas systématiquement sur le présent plan.
